Dear Ms. Camacho:

I just want to tell you what an exceptional job the community management team does. It is apparent in the immaculate facilities, well-groomed landscape, professional and friendly staff, and planned resident activities. I was most impressed with an experience earlier this summer. I stopped by the office for assistance just moments before closing on a Friday evening. I was helping a lost child in the complex find her parents. I live by the tot lot so she knocked on my door and was understandably hysterical. She was visiting from El Paso, Texas and arrived just hours earlier. Her family was visiting a resident in our community. The lady and gentleman working that evening were just outstanding. They calmed down the child and were able to collect the information they needed to locate the resident and return the little girl home safely. They were a very impressive team. We relocated to Arizona with my company and have lived in this community for over two years. It has been a joy. It is like living in a resort. Thank you for all you do to make this a quality home for all of our residents. You are appreciated!

Sincerely,

Jennifer
